

Guidelines for technical paper poster presentation at CTRG 2011

- Each presenter will be assigned a board to hold a poster of size 36 inch (height) × 48 inch (width).
- Top portion of poster should contain the title of the paper with font size not smaller than 86 pt (Arial) or 100 pt (Times New Roman) and bold. Next lines in top portion should contain author's name with font size not smaller than 60 pt (Arial) or 66 pt (Times New Roman) bold and their affiliation with font size not smaller than 40 pt (Arial) or 44 pt (Times New Roman) bold.
- All main headings must be no smaller than 48 pt (Arial) or 54 pt (Times New Roman) bold. Font sizes in subheadings must be no smaller than 40 pt (Arial) or 44 pt (Times New Roman) bold.
- Font sizes in main text must be no smaller than 30 pt (Arial) or 34 pt (Times New Roman). Font size in figure and table titles should be no smaller than 32 pt (Arial) or 36 pt (Times New Roman).
- All letters must be easily readable from a distance of 1.5 m.
- Keep your statements concise and legible. It is suggested that you use about 20% text, 40% graphics and 40% white space on your poster for an effective presentation.
